

# Jivagram becomes the First NABH-Accredited AYUSH Hospital in Haryana

2

August 24, 2020

**Faridabad, August 21:** Jivagram, a holistic centre for well-being by Jiva Ayurveda, has become the first AYUSH Hospital in Haryana to be accredited by the National Accreditation Board for Hospitals and Healthcare Providers (NABH). A certification of impeccable healthcare standards, the NABH accreditation gives Jivagram a strong foothold in Ayurveda-based medical care and further consolidates its position as an authentic Ayurvedic healthcare provider.

***DrPartapChauhan, Director, Jiva Ayurveda, was appreciative of Jivagram's NABH accreditation and was happy to see Ayurvedic practices finally get the recognition they deserve. "Jivagram is equipped with high-quality infrastructure to serve patients. We are one of the few AYUSH hospitals to have received NABH accreditation. At Jivagram, we believe each patient is unique and offers personalized treatments for them, which starts with detoxifying the body. Since NABH accredited institutions are preferred by medical insurance providers, the accreditation will be beneficial for our patients."***

Built on core Ayurvedic values of targeting the root cause of illnesses, Jivagram believes in the complete wellbeing of an individual – one that incorporates the mind, body and soul. Its Ayurvedic treatment approach, derived from ancient and traditional Ayurvedic practices, is suited to address the individual needs of every patient. And to that end, Jivagram provides customized Ayurvedic medicines and treatment, along with guidance on diet and lifestyle.

The highlight of Jivagram's well-groomed Ayurvedic practices is thorough

detoxification and rejuvenation of the body through personalized Panchakarma therapy sessions. This renowned five-step cleansing process eliminates diseases, balances the doshas, and helps patients attain a healthy and purified body, full of positive energy. Apart from Panchakarma therapies, Jivagram also offers personalized Yoga Sessions, Raga Chikitsa, Art Therapies, and Ayurvedic Cooking Classes as support to the mainline treatments.

In view of recent times, Jivagram also adheres to precautionary measures and COVID safeguards, maintaining thorough and stringent hygiene procedures throughout a patient's journey. The hospital-grade cleaning and screening protocols make Jivagram a secure, welcoming and trusted environment.

## **About Jiva Ayurveda**

**[www.jiva.com](http://www.jiva.com)**

Jiva Ayurveda was founded in 1992 with a vision to create a healthy, happy and peaceful society by reviving Ayurveda – Vedic Indian science of healing and well-being – in a modern context. The mission of Jiva is to bring 'high quality, authentic Ayurveda to every home'.

Started with a single clinic by DrPartapChauhan, Jiva Ayurveda is one of the leading and trusted names in Ayurveda today. Having pioneered the world's first online Ayurvediccentre and telemedicine practice in 1995, Jiva has leveraged technology to bring traditional, personalized Ayurvedic treatment to millions of people all over the world. The Jiva Medical and Research Centre is one of the largest Ayurvedic telemedicine practices in the world where more than 400 Ayurvedic doctors and healthcare professionals provide consultancy and services to over 6,000 patients every day. Jiva Ayurveda reaches out to more than 1,800 cities and towns, bringing high quality, authentic Ayurvedic treatment to people's doorsteps. With over 70 integrated patient walk-in clinics operating in 17 states in the country, Jiva Ayurveda Clinics and Panchkarma Centers have become a national chain of treatment centres all over the country.
